

D'Artagnan Romann de Mello

Mid-level full stack developer · São Leopoldo, RS

dartagnanromann@gmail.com · linkedin.com/in/dartagnanromann · github.com/RomannDEMello

I'm a mid-level full stack developer focused on building systems and automations. I build systems connected to the outside world and turn manual work into automatic routines. Leading the CRMillion team, I kept a system with more than 500 users running. And I know marketing, from SEO to paid traffic on Google and Meta.

Tech Lead · Carmillion

Mar 2026 to Oct 2026 · São Leopoldo, Brazil

- CRM for car dealerships, with more than 500 users
- 5 external integrations: WhatsApp Cloud API, ZapperHub and OLX, Mercado Livre and Messenger webhooks
- 805 commits in 7 months: 55% of the API and 34% of the app in the period
- 341 features and 297 fixes shipped, 165k+ lines
- Infra with Docker Swarm, Traefik, Postgres and Prisma
- 360 of 414 team PRs reviewed and merged (87%)

CTO · Infusio Studio

Jan 2025 to now · Remote

- AI chatbot integrated with WhatsApp
- Modern websites in Next.js
- Process automations with n8n

Full stack developer · Saipos

Sep 2025 to Mar 2026 · São Leopoldo, Brazil

- Technical bridge between web development and marketing
